Hi Andrew,

Apology again for the late reply. Yes, PA boundaries were digitized by WCS GIS staff according to the boundary description shown in the notification letter of the Forest Department. You can give credit to "WCS Myanmar".

Best,  
Latt

Dear Latt,

Great, thank you very much! Can you confirm that this is WCS's data, and you can give permission for it to be used to improve OpenStreetMap? If so I can make sure it is cited appropriately on the OSM data contributors page which is at <https://wiki.openstreetmap.org/wiki/Contributors>.

Thank you,

Andrew

Dear Andrew,

Sorry for the late reply. I missed your email. Please find attached shapfile for Myanmar PA.

Best,  
Latt

Hello,

I wanted to follow up on this. Please let me know if I can answer any questions.

Thanks,

Andrew

Hello,

I was wondering if WCS Myanmar had any maps, shapefiles or other geo-data for parks and protected areas around the country that you could share, for the purpose of improving [OpenStreetMap.org](https://OpenStreetMap.org), the free and open map of the world.

OpenStreetMap is used by many businesses, nonprofits, humanitarian groups, local governments and local organizations, and many national parks, protected areas and other features are missing from OSM. I want to make sure that all the protected areas in the country are represented correctly on the map.

Specifically I was hoping to find boundary data for Parsar Protected Area and Bwe Par Taung National Park which are not on OSM.

Please let me know if you have any questions. Thanks!

Andrew
