OPEN MAPPING GURU

The aim of the Open Mapping Guru Program is to catalyze a regional network of dedicated and experienced OSM contributors and mappers to support localized and regional community building through skill sharing, capacity development and diverse opportunities to make meaningful contributions.

Open Mapping Hub
Asia-Pacific

Open Mapping Gurus (OM Gurus) are experienced and motivated OSM mappers that have been trained and engaged to lead on training, production of learning materials, and support open mapping activities in the Asia Pacific region.
