

# 5 TIPS TO BOOST PARTICIPATION IN COMMUNITY

BY MADINA TLM

## Challenges:

Disaster mitigation,  
agriculture, urban  
problem, ect.

## Solutions:

Mapping: Solving real-  
world problems, and  
building stronger  
communities

# ***WHY PARTICIPATION MATTERS?***

- Supports Accurate Data Collection
- Strengthens Networks and Collaboration
- Provides Community-Driven Solutions

## ***5 TIPS:***

### **#1 - Educate and Empower**

Provide training on mapping basics.

### **#2 - Make It Fun**

Incorporate gamification.

### **#3 - Build a Sense of Belonging**

Treat the community like a family.

### **#4 - Highlight the Impact**

Show real-world outcomes.

### **#5 - Leverage Technology**

Make participation easy with technology.

# #01 EDUCATE AND EMPOWER

> Offer free workshops to teach the basics of mapping.

Audience: College students at Sriwijaya University

Audience: College students at PGRI University

# #01 EDUCATE AND EMPOWER

> Provide online tutorials or e-learning platforms to make learning accessible.

#02

# MAKE IT FUN

## DURING SEMINAR

Giving rewards to participants who are actively engaged during the seminar (quiz/game).

# #03 BUILD A SENSE OF BELONGING

Host offline meetups or gatherings to build personal connections.

# SOME INTERESTING PROJECTS/TALKS

Share inspiring stories from community members to motivate others.

# #04 HIGHLIGHT THE IMPACT

- Present case studies of successful mapping projects, such as disaster relief efforts.
- Show local statistics, like how volunteer mapping has helped identify flood-prone areas in Indonesia.
- We can create our own agenda/mapathon/validathon/any projects.

# LEVERAGE TECHNOLOGY

- Use smartphone-based mapping applications that are simple to learn.
- Promote open-source platforms like OpenStreetMap that allow anyone to contribute and easy to use.
- Example : Mapcomplete, osmand, strava etc

**Let's learn and grow together**
