Dear Mas Iyan,

Please use this statement below from our colleague for your reference on doing the modification on OSM. I am sure this is enough. Any concern regarding BPS permission, you can contact us at any time.

Terima kasih Mas.

Made

Dear Made,

OSM provided their services to support the activity under UNICEF-Gol programme cooperation. BPS is one of Gol institution which is in partnership with UNICEF to support the programmes under this cooperation. Therefore, I don't think OSM need the above supporting document since the activity is not between OSM and BPS. We can always use our CPAP as a basis of our partnership with all related Gol institutions.

I hope this can give an adequate answer.

Regards,
